-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 19 March 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

Claim Rejections - 35 USC § 102

Claims 1-3,8 and 10 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Schlecht et al.

See winding shaft 25, blind 28, springs 51,52, bearings 45,46, with bores therein, guide device 47, and guide member 48,49. The guide member portion which has the aperture 48 therein is in the form of a rail. The guide device permits the shaft to pitch back and forth while remaining in the plane of the shade. The “stop” would be elements 53. Guide device 47 is displaceable in guide member 48 in a direction parallel with the pulling direction of the blind since the blind can be pulled out in a horizontal direction parallel to the axis defined by 47.

Response to Arguments

Applicant's arguments have been fully considered but they are not persuasive. Applicant alleges that the Schlecht device has a different function, which is accurate. However, the claims read on the Schlecht device as discussed above. The vehicle is not being claimed. The springs permit one end of the shaft to be raised while the other end is correspondingly lowered, thereby defining that both ends are moveable in the plane of the pulling direction of the blind.

Allowable Subject Matter

Claims 4-7 and 9 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
